

Updated construction schedule and lane closure for the Alamo RMA US 281 Super Street

**Intersection of 281 North at Encino Rio to be CLOSED Friday, August 27
from 9:00 p.m. till 5:30 a.m. Monday, August 30**

Weather permitting; the following construction will take place.

Intersection of 281 North at Encino Rio (Northbound and Southbound lanes)

To begin preparation for work for this weekend crews will seal and overlay the center medians at Encino Rio tonight (August 25) and Thursday (August 26).

Crews will work Friday, August 27 from 9:30 p.m. till 5:30 a.m. on Monday, August 30.

Lanes at the Encino Rio intersection will be closed to resurface and restripe the pavement.

Work will

continue from the center medians to the outside lanes. Crews will then wire in new controllers and put

the traffic signals on flashing red until Monday morning.

One lane in both northbound and southbound US 281 will be open during this time – but will be varying as crews work to resurface this roadway.

Detours

Drivers will be asked to take a right hand turn out of Encino Rio and follow the detour up to Evans

Road. Traffic officers will be directing traffic. Drivers can expect delays during this time.

The construction crews will be working as quickly as possible to finish all necessary work to reopen this intersection by Monday at 5:30 a.m.
